

Automotive Credit Corporation Clarifies Confusion

There has been some recent confusion between our company: Automotive Credit Corporation (ACC based in Michigan) and a separate, independent entity: Automotive Consumers Corporation (ACC based in California). Current articles have announced ACC (California) as out of business with little clarity as to which company they are referring to. This has prompted many banks, media outlets, and dealerships alike to contact our office to find out more about the status of Automotive Credit Corporation.

Our company however, is healthy and prosperous with 2008 being the most successful year to date. We saw expansion into six new states and recorded record-breaking numbers month after month. While many of our competitors have closed their doors or scaled down their operations, ACC has stayed a leader in the sub-prime finance industry with consistent strong management, consistent buying, and consistent funding.

Automotive Credit Corporation, headquartered in Southfield, Michigan, is a regional automobile finance company focused on the sub-prime market. Automotive Credit Corporation purchases installment contracts from both independent and franchised automobile dealers for consumers with limited or challenged credit histories that are unable to obtain financing from traditional sources.

Founded in Michigan in 1992, ACC has partnerships with hundreds of dealers throughout the Midwest, East and Southeastern United States including Michigan, Ohio, Illinois, Indiana, Tennessee, Kentucky, Missouri, Georgia, Maryland, Florida, Virginia, Kansas, Arkansas, and Alabama.

Gregory Donaldson is the dealer representative for Maryland. Prior to joining the ACC team Gregory held positions such as National Director, National Accounts Manager, and Regional Manager in the sub prime finance industry. With over 17 years experience in providing dealers with organization, technology, products and personal service, Gregory is looking forward to helping you grow your business.
