

MEMORANDUM

TO: MIADA/DIADA Dealers

FROM: George N. Manis, Executive Director

DATE: August 25, 2010

RE: Vendor Selection for Temporary Tag Processing - **TriVIN**

After attending 18 or so MVA Temporary Tag seminars, numerous meetings with the two vendors, and polling our Board of Directors individually, we have selected **TriVIN** as the best option for our members in complying with SB 67, which goes into effect on October 1, 2010.

We based our decision on the easy use of the system, the simplicity in processing temporary tags for out-of-state purchasers, the same day reporting for the dealer's records, the availability of training and help when needed and checking their references with other users.

If you have not signed with **TriVIN** yet, please call Rob Adams at 800-876-2312, ext. 4605 today. He will also talk to you about any training you might need. Speaking of training, MIADA will host four more training sessions for independent dealers with **TriVIN** over a two day period on September 16th & 17th in Annapolis. Look for more information in a forthcoming communication.

For those of you who already use **TriVIN**, you will get an additional icon on your system that links you with the temporary tag processing form. For anyone who is new and just wants the "stand alone" version (printing temp tags only as opposed to processing titles, too) you will have easy access to **TriVIN** through a link on our website.

Remember, you will only be able to issue temporary tags electronically, beginning October 1, 2010. No choice! You must comply. We have to do it; little time to do it in. Sign-up now with **TriVIN**. Don't wait.

Please contact us if you need help signing up or have any questions.
